

Please do not allow LPFM stations to take priority over current FM translator service that allows my local K-Love station to broadcast in the Chicagoland area (94.3 FM). K-Love has a very important place in both my communtiy and my home. The spiritual ministry provided by K-Love is very positive and life-changing. If my community loses K-Love, it will be a huge loss that will hurt many individuals and their families. The service that K-Love provides has a positive effect on all who listen. I have been listening for over a year now and many friends have also tuned in to K-Love. Please don't take this away. Our world needs more stations like this, not less. God Bless!
